Lawyer Mind/Artist Mind: A Place Where Two Worlds Meet

"Lawyer Mind/Artist Mind: A Place Where Two Worlds Meet" showcases attorneys who engage in artistic outlets, in part, as an effort to find balance between the rule driven rigid confines of their profession and the font of creativity and passion that exists, to one degree or another, in all of us. It promises to be an exhibition that shows attorneys engaged in their artistic medium of choice and discusses the impact such endeavors have on balancing mental health and overall happiness for members of the profession. Mike previews photographs of several lawyer artists, including John Wilkerson who finds joy and inspiration through woodworking.
